PROFESSIONAL EXPERIENCE

Deep Knowledge Analytics Ltd. | Junior Front End Developer

August 2023 - November 2023, United Kingdom

- Enhanced user experience through the integration of data visualisation libraries such as Chart.js and D3.js.
- Created responsive web components utilising HTML5, Material UI, React.js, and Redux.
- Minimised bugs by crafting clean, testable code, ensuring long-term maintainability.
- Implemented responsive web design using Editor X, optimising accessibility and performance.

SLK Software | Software Team Lead

September 2022 – November 2022, India

- Developed, maintained, and tested a blockchain UI portal utilising JavaScript (ES6+), React JS, HTML5, and CSS3, delivering an intuitive and responsive user interface.
- Facilitated requirement gathering sessions with stakeholders to ensure their needs were understood.
- Documented technical designs and data flows to facilitate knowledge sharing and collaboration within the team.

Delixus, Inc | Software Engineer

October 2021 – August 2022, India

- Engineered responsive web application components for cybersecurity purposes using React, JavaScript, HTML5, Ant Design and CSS3, resulting in enhanced customer engagement.
- Optimised application performance by implementing Redux as state management tool.
- Leveraged MySQL for data extraction, filtration, and manipulation from the database.
- Identified and rectified project bugs, leading to a monthly decrease in reported bugs by 8%.
- Engaged in daily Scrum calls, contributing progress updates, discussing blockers, and coordinating tasks within the development team.

Canara Bank | Associate

May 2015 – October 2021, India

- Developed strong analytical and problem-solving skills through daily tasks involving data entry, analysis, and reconciliation.
- Wrote SQL queries to filter, analyse and export data to excel and csv files.
- Developed strong knowledge of banking products, services, and regulations through daily interactions with customers and handling various banking transactions.
- Translated complex analysis findings into clear narratives and actionable insights.
- Adapted quickly to new technologies and software systems used for banking operations, demonstrating proficiency in learning and applying new tools.

SOFT SKILLS

- Problem Solving
- Effective Communication
- Attention to Detail
- Team Work

EDUCATION

Bachelor of Technology (Information Science and Engineering)

JSS Academy Of Technical Education

Bengaluru, India

2010-2014
