Professional Experience

Deep Knowledge Analytics Ltd. | Junior Front End Developer

August 2023 - November 2023

- Enhanced user experience through the integration of data visualisation libraries such as Chart.js and D3.js.
- Created responsive web components utilising HTML5, Material UI, React.js, and Redux.
- Minimised bugs by crafting clean, testable code, ensuring long-term maintainability.
- Implemented responsive web design using Editor X, optimising accessibility and performance.

SLK Software | Software Team Lead

September 2022 – November 2022

- Developed, maintained, and tested a blockchain UI portal utilising JavaScript (ES6+), React JS, HTML5, and CSS3, delivering an intuitive and responsive user interface.
- Employed Axios to consume backend REST APIs within React applications, optimising data retrieval and manipulation.
- Utilised Git and NPM for effective code and dependency management.

Delixus, Inc | Software Engineer

October 2021 – August 2022

- Engineered responsive web application components for cybersecurity purposes using React, JavaScript, HTML5, and CSS3, resulting in enhanced customer engagement.
- Optimised application performance by implementing Redux as state management tool.
- Leveraged MySQL for data extraction, filtration, and manipulation from the database.
- Identified and rectified project bugs, leading to a monthly decrease in reported bugs by 8%.
- Engaged in daily Scrum calls, contributing progress updates, discussing blockers, and coordinating tasks within the development team.

Canara Bank | Associate

May 2015 – October 2021

- Provided guidance to customers on mortgage, bank products, schemes, KYC, and loan applications.
- Demonstrated capacity to manage multiple tasks concurrently, effectively prioritise work, and meet deadlines, ensuring streamlined workflow management.
